

Leica HDS Roadshow

Surveyors Service Company invites you to attend a **FREE** Leica HDS seminar and lunch introducing the New ScanStation 2.

Learn how HDS is revolutionizing the way surveyors and engineers measure, design and improve project profitability:

- Demonstration of field data capture using the **New** Leica ScanStation 2 - scans 50,000 points per second!
- See how the latest software suites efficiently create CAD deliverables from point cloud data, including the **New** Cyclone II Topo
- Applications include civil infrastructure, buildings and facilities, process plants, heritage sites and more
- See how companies using the latest generation of Leica laser scanners and software solutions significantly reduce field and office labor costs

To speak to a Leica HDS Professional please contact Birk Ellis at 916-730-5465 or Birk.Ellis@leicaus.com
